Attractions

1. The Lake

Description:

"Where is the lake?" is the question most ask as soon as they get off the bus. The lake unfolds before them as they walk down the hill, a place of timeless beauty and elegance. Whatever you do whilst here, make sure you take time out to unwind and enjoy the magnificance of Lake Bled!

The LowDown:

The Lake was first mentioned in 1004 and we're sure they marvelled at its beauty just as we do today. To get acquainted, there is nothing better than to stretch your legs with a lazy walk around the lake. The length is 6km and can be done in a brisk hour or a lot longer for those who will want to linger and take up the numerous photographic opportunities!

Heading west from Bled Town you pass the famous Hotels Toplice, Trst and Jadran. There is plenty of history here and these hotels were the first to take advantage of the thermal springs that still supply the hotels today.

Walking past the Straza Hill which has skiing in winter and tobagganing in summer, you go round a corner into Mlino, a small hamlet that also houses the famous Hotel Vila Bled. This was a famous summer residence for the late President Tito and these days guests can sit down to a regal dinner at the hotel restaurant. Not cheap, but something to consider if you want to experience some fine dining.

Continuing on to the far side of the lake, we pass Osojnica hill which offers great views if you wish to take the path to the summit. The far side at Zaka is where we find the Bled Camping site and the Slovene Rowing Centre. Regular World and National Championships are held on the lake.

As we head back to town we pass the Grajsko Kopalisce or the swimming area underneath the Castle. It's a very popular spot in summer. The steepish path also leads up to the castle from here which is partly obscured by trees and woodland. Approaching town again, we take in Vila Preseren and the multitude of merchants who will tempt you to take a boat ride to the island in the traditional pletna. Will you succumb to their calls?

Under the shadow of the Hotel Park we end our journey. It's time to find some refreshment or maybe a hearty meal at a local eating establishment.

Bikes can also be hired from the Information Centre or from private agencies like Helia, Lifetrek, Kompas or

Intergames at Velika Zaka

The usual charge is from:

10euros per day / 7euros per half day / 3.50euros per hour

There is also a tourist train that goes around the lake and stops at 7 locations. Buy tickets on board which are good for one trip only. The train runs roughly every 45 minutes from late April to when it gets cold in October or November. It doesn't run on days when the weather is really bad or when the driver doesn't feel like it! When running, it tries to coincide with arrivals of trains at Bled Jezero station.

6. Vintgar Gorge

Description:

Not far from Bled and nestled at the bottom of a ravine where the mighty Radovna River flows, we find the picturesque tiny village of Vintgar whose claim to fame is the magical Vintgar Gorge. It is definitely a must-see tourist attraction if you are visiting Bled and is easily reached by car, bike or on foot.

The Low Down:

Vintgar is a narrow gorge carved out over time by the Radovna river which weaves and cascades through the gorge at great speed, only slowing briefly in places to catch it's breath. Many men perished or were injured in the process of building the narrow walkways that cling to the sides of the gorge back in the 1800's.

Today the experience is exhilarating and thousands traverse the trail that leads 1600m to the Šum Waterfall. Enjoy the sounds of the crashing waters as a torrent of emerald green rushes beneath your feet. Stopping also to admire the surrounding nature and wildlife, your camera will have many opportunities to catch that magical shot.

You can buy a ticket at the booth upon reaching the Gorge and as mentioned above, the trail is around 1600m long. At the end of the trail there are toilets and a refreshment stand so you can take break before heading back along the same route. It is possible for serious hikers to continue on along the marked paths.

The walkways are quite narrow and high in places so watch your footing whilst walking. Shoes with good traction are a good idea and it's probably not the best idea to visit when it's raining as the path will be slippery. You may want to plan your visit to avoid the crowds because squeezing past oncoming traffic may becoming a little tiring after a while.

Where is it \ How to get there?:

By car: Travel north on the road leading out of Bled. The roads are marked. You can't miss it as there are several signs pointing the way.

Walk\Bike: There are also signs if you want to walk or ride the path from Bled. The distance is a leisurely 4 kilometres.

Bled may be a favourite holiday destination for its outstanding beauty, but there is a culinary delight that is almost as famous here and must be tried before your departure!
